-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 1/12/2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Response to Amendment***

1. Claims 14, 47, 71, 96, 121, and 145 have been amended. These amendments overcome the 35 U.S.C. 112 2<sup>nd</sup> paragraph rejection presented in the previous office action.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-182 are rejected under 35 U.S.C. 102(e) as being anticipated by U.S. Patent Number 6,529,957 to Joergensen.
4. Claims 1-182 are rejected for the same reasons pointed out in the previous office action.

### ***Response to Arguments***

5. Applicant's arguments filed 1/12/2006 have been fully considered but they are not persuasive. The applicant argues that Joergensen is directed towards evaluating an "error rate" rather than "a cable detector that determines a first number of pairs of twisted pair wires of said cable that are operable". The Examiner points out that since Joergensen is evaluating the error rate of a twisted pair then Joergensen is determining that the pair is operable. The Examiner points out that though the independent claims mention a "first number of pairs", this language

Art Unit: 2142

does not limit the claim to 1000BASE-T Ethernet scenarios as asserted by the Applicant. Any Ethernet cable would have a “first number of pairs”. Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

6. Should the applicant narrow the claims to limit the invention to 1000BASE-T scenarios, the Examiner would like to direct the Applicant to columns 17-22 of U.S. Patent Number 6,898,185 and columns 20-22 of U.S. Patent 6,377,640. The Applicant is strongly urged to consider these documents because of their relevance to the Applicant’s inventive concept.

### ***Conclusion***

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
